

TAKE ENDOTOXIN OUT OF THE PICTURE.

Alteco[®] LPS Adsorber

High levels of endotoxin activity are associated with organ failure and death. Alteco LPS Adsorber removes endotoxin and can stabilize the patient's hemodynamic parameters in 2 hours.

Early treatment start matters. Use Alteco LPS Adsorber early to avoid cytokine storms and organ failure, and turn the course of sepsis.

SAFE

EU medical device class IIa
No contraindications

SPECIFIC

Extracorporeal endotoxin
elimination in hemoperfusion

EFFECTIVE

Results in 2 hours
1 treatment = 1 adsorber
